Catalogue

Fast-movers and more

Welcome to our product catalogue. Here, you'll find a selection of our most popular and fast-moving components, chosen to meet your immediate needs. While this catalogue highlights our top-selling parts, our full range includes countless other items, available for order.

If you can't find what you're looking for, don't hesitate to contact our team. We're here to help you keep your fleet moving.

OEM vs. AFM

In addition to providing original (OEM) parts, our range includes equivalent aftermarket (AFM) parts with an exceptional price-performance ratio. We guarantee you 'no surprises', as the distinction between OEM and AFM is completely transparent.

- **OEM parts are identified by the first two letters of the MEWP brand name.**
E.g. 'GE' for Genie, 'JL' for JLG.
- **AFM parts are labelled with letters representing the product category.**
E.g. 'BC' for battery chargers.

Our plug-and-play promise:

All our AFM parts are designed for full compatibility with their OEM counterparts, providing reliable and operational alternatives. Simply select the part that fits your technical needs and avoid all compatibility issues.

Brands

To meet your diverse needs, we offer a wide range of brands. Our selection includes some of the industry's most reliable and respected names, such as:

Genie (pp. 4 - 49)

Skyjack

JCB

Haulotte (pp. 50 - 85)

Snorkel / Upright

Dingli

JLG (pp. 86 - 125)

Hinowa
